

Bonds Logistics Live with ISIS 3PL WMS

Melbourne AUSTRALIA March 2011. - Following a rigorous evaluation by the Bonds Logistics management team the ISIS 3PL Warehouse Management System with its fully Integrated activity based costing and 3PL Billing modules was chosen to be Implemented at the Silverwater Australia Multi Client Distribution centre. www.bondscouriers.com.au

The project was quoted and delivered as a "turn-key solution" and Included all Infrastructure including Cisco AP's and LXE MX7 hand held RF devices. The project was delivered on time and within the agreed fixed price quoted.

Louise Cannon National Logistics Manager made the following comments.

Hi Guys,

"I would like to personally thank the Microlistics team for all their hard work in helping us accomplish a mammoth task. The people have been fantastic and I could not have asked for better service from the whole team of Microlistics. There is still plenty to do but I am so very grateful for the service provided. Both Mike and I are very happy with the selection we have made with not only the system but the team behind the system. The benefits are already very obvious Louise said".

Thank you again!

Kind Regards
Louise Cannon
