Microlistics moves to new Corporate Headquarters

After continued growth in Australia and Overseas markets Microlistics the privately owned Supply Chain Warehouse Management Software Company has moved to new Corporate Headquarters in South Melbourne Victoria Australia. Recent new Clients such Spotlight Group, Anaconda, Wettenhalls ,State Transport & Logistics , Bonds Logistics and United Warehousing Company in Saudi Arabia along with further development work for the Metcash/Mitre 10 Group has meant Microlistics has continued to expand its resources and development Team and larger premises were required.

Mark Dawson, Managing Director of Microlistics said the move has been long overdue and the purpose built office facility has been a great morale boost to all of the Staff. The location is ideal as we can be on the Western arterial or South Eastern arterial within One minute and given 95% of our Melbourne based work is in these areas it is a very convenient location.

Microlistics:

Microlistics display world leadership in the design, development and implementation of Warehouse Management Systems and are based in Melbourne Australia.
